PERSONAL STATEMENT

As an individual, I consider myself trustworthy, enthusiastic, well organized, determined and a highly motivated person. I believe that all tasks in life should be completed to your highest capability. I have always loved technology which brought me into the field of Computer Science. My career aim is to work in a creative area of development and my long-term goal is to use and create technologies that help people.

EDUCATION

B.Sc. Computer Science & Software Engineering | Maynooth University
SEP 2014 – SEP 2019
Achieved a 2:1

Leaving Certificate | Coláiste Chiaráin
AUG 2009 – JUN 2014
Achieved 410 CAO Points

CERTIFICATIONS

- AWS Cloud Practitioner
- Digital Skills: User Experience
- Communication and Interpersonal Skills at Work

SKILLS

Languages: Java, HTML, JavaScript, TypeScript, jQuery, XML, Python, Angular, CSS, JSON, ReactJS, React Native
Databases: MySQL, PostgreSQL, Firebase
Programming Tools: Eclipse, Visual Studio, StarUML, Junit, VS Code, Selenium, Cypress, Git, SVN
Operating Systems: Windows, Linux, Android
Other: Microsoft Office

EXPERIENCE

Systems Team Member | Version 1
JUN 2022 – SEP 2022
I was a member of a systems team in Energia helping to document and work on their existing Azure pipelines for one of their project teams.

Junior Front End Developer | Version 1

OCT 2021 – JUN 2022

My last project was working on a mobile app development team using the React Native framework to build an MES application. This was a greenfield project. I played a key role designing the initial screen designs and mocked them up with InVision.

I first worked on a greenfield project to develop a mock-up for a waste and energy company. My main tasks were product/user research, screen designs and mock-up's creation.

DevSecOps Specialist for ESB | Version 1

MAR 2020 – SEP 2021

I was based in ESB as a DevSecOps Specialist. I worked with Azure DevOps to enable pipelines for the client. My main duties were configuring pipelines, providing pipeline support, setting up projects with SonarQube, scripting to automate manual tasks and documentation. I also researched and implemented solutions for performance and accessibility testing with Google Lighthouse and Axe core. With this I delivered presentations to both the client and other development teams.

Technical Consultant for Irish Life | Version 1

SEP 2019 – MAR 2020

I was based on an agile team in Irish Life Corporate Business working to update and retire their legacy VB applications. My main duties were Cypress testing, Angular UI additions, fixing code smells and bugs and Unit testing.

Product Implementation Intern | FINEOS

JAN 2018 – AUG 2018

During my time at FINEOS I worked on various tasks listed below.

- Software Application development in a Java Enterprise architecture, with work packages contributing to the success of the team
- Participation in Agile sprint planning and retrospectives, active member of the scrum team.
- Software test engineering – test plan creation, execution, and defect testing.
- Software defect resolution and analysis
- Java Automation testing with Selenium Java framework.
- Regular meetings with the team and team lead on a daily basis to report progress.
- Issue analysis and translations analysis on a dual-language insurance software application

PROJECT WORK

Title:	Skills Learned:
My Library	HTML, CSS, JavaScript
Personal Portfolio	HTML, CSS, JavaScript
Instrumentalize (FYP)	HTML, JavaScript, SCSS, Angular, p5.js, Bootstrap
Listen and Lyrics	Angular, HTML, TypeScript, API Querying, Bootstrap, Firebase
Cooking with Cocktails	HTML, JavaScript, CSS, Bootstrap, jQuery, Firebase, AWS
Hiragana Web App	HTML, JavaScript, CSS, PHP
MusicSpace	StarUML, MockUp, Powerpoint, Word

PERSONAL DEVELOPMENT, INTERESTS, ACHIEVEMENTS

I look up aspects of web design in my spare time and am hugely interested in technological advances in the fields of medicine and disabilities. I also enjoy volunteering and connecting with people as seen through my history of being in different leadership and volunteer programmes such as my roles as a MAP Ambassador, Class Rep and Student Senator in University.

- Piano: Grade 8 in practical exams from the Royal Irish Academy of Music
- Gaisce Bronze Award
- Lifesaving: Obtained exams up to Rescue 2
- University Archery Club: Sat on the committee for 2 years, competed in competitions
- Volunteering: S Cubed; a Student Supporting Students initiative, Various College campaigns
- Hobbies: Reading, photography, crafts, walking, archery, swimming, gym
